Dylon Machine Dye Pods

How To Use

1. Put damp fabric into the drum. Remove sleeve, peel off lid and put the DYLON colour pod on top of the fabric.
2. Run full cycle (30°C or 40°C).
3. Run another cycle (30°C or 40°C) – with detergent

Read leaflet for detailed instructions.

Suitable for:

- Cotton
- Linen
- Viscose.

Mixes with synthetics will dye to lighter shades

(pure synthetics will not dye).

One pack dyes 600g of fabric to full shade, up to 1.8kg to lighter shades.
